

Current Evangelism team members.

I'll update this when we have new people or when others can't help anymore. I encourage you to update these contacts in your phone, so you will know who responds or messages our group in our evangelism group text chat.

Folks who choose not to help after 6 months are removed. There are of course extenuating circumstances, (like death in family, health issues, etc. that can exclude this rule, if they let me know about these issues and that they are still interested in remaining in group).

We're a team and family that need to support each other. It takes time and resources to coordinate the activities taking place. The network needs reliable members who have each other's back. After a 6-month absence, if people are shown that they can't be depended on they will be removed from the group/group text.

Note: I don't have everyone's emails. If you want to update your contact if with your email, please send your email to me at joseph.leesullivan@gmail.com If anything else needs to be updated you can contact me via this email.

Team leaders: *(A team leader is someone who heads up a Bible class/training class or evangelism event. When you are ready to do this let me know. The goal is to get people comfortable for such a transition, once they feel they are ready).*
